

Endowed Fund for The Breast Cancer Site Researcher at Mayo Clinic

Thank you! Purchase of this Gift That Gives More™ helps endow a fund for breast cancer research at Mayo Clinic.

GreaterGood.org™
**Gifts That
Give More™**

A generous gift of hope has been given in your name.

Every moment counts in the fight against breast cancer and in the search for a cure. And now, The Breast Cancer Site has found one more way to help. We've created The Breast Cancer Site Endowed Fund for Breast Cancer Research at Mayo Clinic. Your gift helps us fund this endowment. Contributions to the fund are matched by Mayo Clinic up to \$250,000 to make an even greater difference.

Mayo Clinic knows intimately the suffering that breast cancer brings. They are committed to working together with others around the world to relieve the burden of this disease for all of humanity. We are proud to support their efforts. Your gift will help conquer breast cancer.

Once fully funded, interest earned from the fund will be used to pay for breast cancer research at Mayo Clinic. The Breast Cancer Site Endowed Fund for Breast Cancer Research at Mayo Clinic will fund breast cancer research in perpetuity. Thank you for helping to find a cure.

Mayo Clinic is the first and largest integrated group practice in the world. Doctors from every medical specialty work together to care for patients, joined by common systems and a philosophy of "the needs of the patient come first." Nearly 3,500 physicians and scientists and more than 48,000 allied health staff work at the sites in Rochester, Minnesota., Jacksonville, Florida., and Phoenix/Scottsdale, Arizona. Collectively, the three clinic locations treat more than half a million people each year.
